

## KC UNIVERSAL ANGLED TUBE CLAMP MOUNTS

The KC Universal A-Pillar Tube Clamp Mounts allow you to easily and securely mount lights and accessories directly to angled roll cages, roof racks, and more.

*WARNING: Please read all instructions before beginning installation. These guidelines are provided in good faith to help prevent any issues arising from errors during installation. The manufacturer of this product shall not be held responsible for any user actions taken or not taken during installation. There are many details of the installation that are assumed to be general mechanical knowledge to experienced installers; which are not detailed in these instructions. These installation guidelines are intended to serve as professional recommendations and are not a step-by-step, fail-safe installation checklist. Selection of an experienced installer is the sole responsibility of the project owner.*

## TOOLS NEEDED FOR INSTALLATION

Flat Head Screwdriver

Scissors

Wrench

# KC UNIVERSAL ANGLED TUBE CLAMP MOUNTS

## INSTALLATION INSTRUCTIONS

### 1. Sleeve Installation

- Completely seat the 7" rubber sleeve over the metal band of the hose clamp with the wider portion of the sleeve on the inside of the metal band.
- Loosely install the sleeved hose clamp with the Tube Mount onto the tube, and remove the extra sleeve material with scissors.

### 2. Final Assembly

- With the fully-assembled Tube Clamp Mount in the final position, open the 1" sleeve into a "V" configuration and slide it in-between the Angled Tube Clamp Mount and the tube.
- Torque the hose clamp to approximately 5ft\*lbs.

### 3. Installing the Lights (sold separately)

- Mount the light onto the vehicle with the light's supplied hardware; typical torque specs apply (M10 uses about 20 ft\*lbs).
